

AI BASED DIABETES PREDICTION SYSTEM

A. XAVIER SWETHA
III RD YEAR CSE

TABLE OF CONTENTS

- 1. TYPE OF DATASET**
- 2. PROJECT OBJECTIVE**
- 3. PREPROCESSING
TASKS**
- 4. DATASET SOURCE**
- 5. CODE FOR PROJECT**

1Is your dataset in the form of text, images, numerical data, or something else? Please describe the dataset's format.

What is the goal of your project? Are you working on classification, regression, natural language processing, computer vision, or any other specific task?

What preprocessing tasks do you need to perform on the dataset? For example, handling missing data, feature engineering, data scaling, etc.

Where is your dataset located? Is it a file on your local machine, an online source, or a specific database?

```
# importing libraries  
import pandas as pd  
import scipy  
import numpy as np  
from sklearn.preprocessing import  
MinMaxScaler  
import seaborn as sns  
import matplotlib.pyplot as plt
```
